**DETAILED ACTION**

***Oath/Declaration***

1. The newly-submitted oath or declaration is accepted.

***Terminal Disclaimer***

2. The terminal disclaimer filed on 15 April 2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 6,761,970 B2 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Response to Amendment***

3. The declaration filed on 15 April 2009 under 37 CFR 1.131 has been considered but is ineffective to overcome the Okawa et al (JP 2002-105752 A) reference.

The submitted declaration does not specifically allege that the acts relied upon to establish the date prior to the Okawa et al reference were carried out in the United States or in a NAFTA country or a WTO member country (35 USC §104; MPEP 715.07(c)).

The submitted declaration does not show possession of the claimed invention, namely a process of making aliphatic polyester multifilament crimped yarn by crimping drawn multifilament fiber in a crimp-providing apparatus that utilizes heated air at 120 - 170°C. While the submitted declaration shows product properties, the instant invention is directed to a process, unlike the parent application (which was directed to, and claimed, crimped yarn products) (MPEP 715.02).

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 25 and 27-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Okawa et al (JP 2002-105752 A) in combination with O'Donnell et al (U.S. Patent 6,770,356 B2) for the reasons of record.

***Response to Arguments***

7. Applicant's arguments filed on 15 April 2009 have been fully considered but they are not persuasive.

8. As set forth in paragraph 3 above, the declaration filed under 37 CFR 1.131 has been considered but is ineffective to overcome the Okawa et al (JP 2002-105752 A) reference.

9. Applicant avers (pages 4-5, via the attorney of record) that the instant application and the subject matter of the Ochi et al invention were commonly owned at the time the invention was made and thus, the rejection of claims 25 and 27-29 under 35 USC §103(a) as being obvious over Ochi et al in view of O'Donnell et al is withdrawn (MPEP 716.02(1)(2)(II)).

10. As set forth in paragraph 2 above, the terminal disclaimer has been accepted and recorded.

#### **Conclusion**

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
